

TECHNICAL SPECIFICATIONS

FERTICELL Cu 15% amino chelated powder

Copper (Cu) Powder 15%.

Product usable in Organic Agriculture according to Regulation (EU) No 2018/848 and 2021/1165.

Product that complies with NOP (National Organic Program - USDA)

Description - Specifications

Ferticell Cu 15% is an organic fertilizer, indicated for the preventive and curative control of copper deficiency states.

Ferticell Copper 15% is a high-quality chelated copper fertilizer that enhances the plant's defense mechanisms against fungal and bacterial diseases. It acts safely and efficiently in the prevention and correction of copper deficiencies in crops.

Ferticell Cu 15% is enriched with unicellular algae, completely neutral and biologically active for faster and more complete tree simulation.

Algae are especially important in plant nutrition, resulting in higher yield, earliness and quality in all crops.

Ferticell Copper 15% is an organic fertilizer that promotes crop growth by increasing enzymatic activity and chlorophyll content, improves nitrogen fixation, promotes cell division, stimulating fruit growth and quality, and promotes protein synthesis.

Applications

Foliar
Fertigation

Packaging available

20Kg

GUARANTEED ANALYSIS:

| Composition | Percentage (w/w) |
|--------------------|------------------|
| Total Copper (Cu) | ≥15% |
| Total Nitrogen (N) | ≥10% |
| | |

PHYSICAL PROPERTIES:

State: Solid powder

Color: Green

GENERAL RECOMMENDATIONS FOR USE AND DOSAGE:

| Crop | Foliar dose | Fertigation dosage |
|---|---|----------------------------------|
| Fruit trees: Citrus, Apples, Pears, Blueberries, Almonds, Cherries, Peaches, Avocado, Mango, Banana, etc... | 150-300 mg / 100 LT / APPLICATION | 6-12 Kg/HA PER APPLICATION |
| Horticultural crops: (Tomato, Potato, Cucumber, Melon, Zucchini, Cauliflower, Onion, Carrot, Pepper, etc.) | 200-400 mg / 100 LT / APPLICATION | 4-9 Kg/HA PER APPLICATION |
| Extensive crops: (Cereals, Alfalfa, Cotton, Beetroot, Corn, Sunflower, etc.) | 200-400 mg / 100 LT / APPLICATION | 4-9 Kg/HA PER APPLICATION |

- The specified doses are general recommendations. The amounts depend on the crop, phenological stage, level of deficiency and soil type.
- The physical and appearance characteristics of the product may be altered due to the ecological nature of the product.
- Use under technical guidance. Store at room temperature in a cool, dry place. Do not mix with phosphate products.

Important notes:

1. The product must be pre-diluted before pouring it into the irrigation or sprinkler tank.
2. In fertigation applications, divide the application, being at most: 12 Kg/ha, in intervals of 10-15 days.
