## FERTICELL NPK 2-20-2 DRIP POWDER

NPK

Product usable in Organic Agriculture according to Regulation (EU) No 2018/848 and 2021/1165.  
Product that complies with NOP (National Organic Program - USDA)

### Description - Specifications

**FERTICELL NPK 2-20-2 DRIP POWDER** is an organic powdered fertilizer, indicated for the prevention and correction of nitrogen, phosphorus, and potassium deficiencies. It promotes the growth and vigor of all plants and is chloride-free.

**FERTICELL NPK 2-20-2 DRIP POWDER** can be applied both foliarly and through irrigation in all types of crops during any stage of the vegetative cycle.

**FERTICELL NPK 2-20-2 DRIP POWDER** is an organic and ecological protein powder. It is rapidly absorbed and highly effective. Absorption can reach 90% within the first 3 hours after foliar application. It is nitrogen-neutral and reduces the risk of nitrogen contamination.

The application of **FERTICELL NPK 2-20-2 DRIP POWDER** is designed to avoid the excessive use of nitrogen fertilizers. It should be applied during the most critical stages of plant development: post-transplanting, growth, pre-flowering, fruit set and development, and when adverse conditions exist for crop development: heat stress, frost, hail, water or saline stress, pest and disease infestations, phytotoxicity, etc.

**FERTICELL NPK 2-20-2 DRIP POWDER**, used during the growth phase, activates the metabolic systems of crops and gives vigor to plants, improving their response to abiotic stress, as well as the healing of cuts/wounds on the leaves of the crop thanks to its high amino acid content.
