

TECHNICAL SPECIFICATIONS

FERTICELL NUTRIPLUS N2.5 Liquid amino

Nitrogen N 2.5-3 Amino acids

Product usable in Organic Agriculture according to Regulation (EU) No 2018/848 and 2021/1165.

Product that complies with NOP (National Organic Program - USDA).

Description - Specifications

FERTICELL NUTRIPLUS N2.5-3 is an organic liquid fertilizer, indicated for the prevention and correction of nitrogen deficiencies, promotes the growth and vigor of all plants and is Chloride Free.

FERTICELL NUTRIPLUS N2.5-3 can be applied both foliarly and through irrigation to all types of crops. It contains single-celled algae, making it completely neutral and biologically active, thus accelerating and improving the assimilation of nitrogen and its accompanying amino acids. Algae are especially important in plant nutrition, as they contribute to increased yield, earliness, and quality in all crops.

FERTICELL NUTRIPLUS N2.5-3 is 100% soluble and made from organic and ecological nutrients. It is rapidly absorbed and highly efficient. Absorption can reach 90% within the first 3 hours after foliar application. It is nitrogen-neutral and reduces the risk of nitrogen contamination.

The application of **FERTICELL NUTRIPLUS N2.5-3** is designed to avoid the excessive use of nitrogen fertilizers. It should be applied during the most critical stages of plant development: post-transplanting, growth, pre-flowering, fruit set and development, and when adverse conditions exist for crop development: heat stress, frost, hail, water or salinity stress, pest and disease infestations, phytotoxicity, etc.

FERTICELL NUTRIPLUS N2.5-3, used during the growth phase, activates the metabolic systems of crops and gives vigor to plants, improving their response to abiotic stress, as well as the healing of cuts/wounds on the leaves of the crop thanks to its high amino acid content.

Uses

Foliar
Fertilization

Containers available

10L
20L
300L
600L
IBC (1000L)

ATTESTATIONS:

GUARANTEED ANALYSIS:

Composition	Percentage (p/p)
Total Nitrogen (N)	≥2.5%
Ammoniacal nitrogen	0.141
Urea nitrogen	0.152
Organic nitrogen	2.65
Total amino acids	19.80%
Algae solution	25.00
(100% single-cell extract of freshwater algae)	

PHYSICAL PROPERTIES

State:	100% soluble liquid
Color:	orange
Density:	1.07 ± 0.01 kg/l
pH:	5.8 ± 1.0

GENERAL RECOMMENDATIONS FOR USE AND DOSAGE

Crop	Foliar dose	Fertigation dosage
Fruit trees (citrus, apples, pears, blueberries, almonds, cherries, peaches, avocados, etc.)	- Maintenance: 2-5 l / ha or 200-500 cc / 100 l / application	- Maintenance: 2-5 l / ha or 200-500 cc / 100 l / application
Horticultural crops: (Tomato, Potato, Cucumber, Melon, Zucchini, Cauliflower, Onion, Carrot, Pepper, etc.)	- Maintenance: 2-3 l / ha or 200-300 cc / 100 l / application	- Maintenance: 2-3 l / ha or 200-300 cc / 100 l / application
Extensive crops: (Cereals, Alfalfa, Cotton, Beetroot, Corn, Sunflower, etc.)	- Maintenance: 2-7 l / ha or 200-700 cc / 100 l / application	- Maintenance: 2-7 l / ha or 200-700 cc / 100 l / application

- The specified doses are general recommendations. The amounts depend on the crop, phenological stage, level of deficiency, and soil type.
- The physical and appearance characteristics of the product may be altered due to the ecological nature of the product.
- Use under technical guidance. Storage: 2 years.
- It is not explosive or corrosive.

TECHNICAL SPECIFICATIONS

FERTICELL NUTRIPLUS N2.5 Liquid amino

Nitrogen N 2.5-3 Amino acids

Product usable in Organic Agriculture according to Regulation (EU) No 2018/848 and 2021/1165.

Product that complies with NOP (National Organic Program - USDA).

Product suitable for use in
Organic Agriculture in
accordance with
Regulations (EU) No.
2018/848 and 2021/1165,
the NOP Regulation.

Control ECOCERT SAS

Product suitable for:

- ❖ Formulation of liquid fertilizers.
- ❖ Soil and foliar fertilizers.

Important notes:

1. Stable under normal room temperature conditions. Do not expose to sunlight or extreme temperatures.
2. Do not store below 16°C.
